

Item no.: 358009

frient smoke alarm (Zigbee)

from **44,76 EUR**

Item no.: 358009
shipping weight: 0.50 kg
Manufacturer: frient

Product Description

More than just a smoke alarm. Imagine always having a friend (frient) to tell you when something is wrong in your home. Someone who immediately warns you at a high volume when smoke is detected. Someone who notifies you via the app, even if you are not at home.

Please note that a Zigbee gateway is required for notification on your smartphone.

A pocket-sized protector. The Zigbee-based intelligent smoke sensor helps you protect your home from the spread of fire, even when you're away. It warns you with a loud sound when it detects smoke (or fire) and also sends you a notification to your smartphone. This way, you can react quickly and notify the fire brigade or a neighbour even in your absence. The smoke alarm is the frient you need if you travel a lot, have a second home or you just want to feel safer in your own home. The intelligent Smoke Sensor is battery operated and easy to install.

- Dimensions: Ø65 x 40 mm
- Power supply battery: 1 x CR123, replaceable
- Battery life: 3 years, reporting every 5 minutes
- Battery level and low battery warning can be reported
- Radio sensitivity: -98 dBm
- Radio output power: +8 dBm
- IP class: IP20
- Operating temperature: 0 to +50°C
- Relative humidity 10-95% non-condensing
- Optical sensor
- Siren output 85 dB/3m
- Temperature sensor range: 0 to +50°C
- Temperature resolution: 0.1°C (accuracy ± 0.5°C)
- Zigbee 3.0
- Conforms to CE, RoHS and REACH directives
- DIN EN 14604 and DIN 14676 certified
