

Item no.: 362142

External USB 2.0 Sound Adapter Virtual 7.1 - 24 bit / 96 kHz with S/PDIF

from **15,70 EUR**

Item no.: 362142
shipping weight: 0.10 kg
Manufacturer: Delock

Product Description

The USB sound adapter from Delock adds an additional sound card to the computer. Headphones or speakers can be connected. The audio output has a combo connector and can therefore be used as a conventional analogue stereo output or as an optical digital (S/PDIF) output. The adapter can play back audio files with up to 24 bit / 96 kHz.
