

Item no.: 361097

Fibre optic distribution box for indoor and outdoor use IP65 waterproof lockable 2 port

from **15,37 EUR**

Item no.: 361097
shipping weight: 0.30 kg
Manufacturer: Delock

Product Description

This lockable distributor box from Delock is suitable for wall mounting and serves as a protective device for optical cables and couplings. The distributor box allows up to two SC simplex or LC duplex couplings to be accommodated.

The integrated splice tray enables clean routing of the individual fibres for optimum transmission of lightwave signals.

The distribution box has one cable inlet and two cable outlets, which are protected with a rubber seal. The seal provides increased protection against dirt and moisture for the connection of fibre optic cables indoors and outdoors.

Specification

- Fibre optic distribution box for FTTH applications
- 2 slots for SC Simplex or LC Duplex couplings
- Wall mounting
- Lockable
- With splice tray
- Cable entry with rubber seal
- Cable diameter: approx. 10 mm
- Suitable for indoor and outdoor use
- Protection class: IP65
- Ambient temperature: -40 °C ~ 75 °C
- Housing colour: white
- Housing material: ABS
- Dimensions (LxWxH): approx. 168 x 102 x 32 mm

Package contents

- Fibre optic distributor box
- 1 x key
- Fixing material
- 2 x shrink splice protectors

Packing

- Box
