from **80,60 EUR**

Item no.: 322710
shipping weight: 0.80 kg
Manufacturer: JOY-iT

Product Description

JOY-iT(R) RB-Advanced-SET - Raspberry 3B+ Advanced Starter Set With this starter kit you will have everything you need to get started with your first maker project. The scope of delivery includes not only the small but powerful Raspberry Pi 3B +, but also the right accessories. The black aluminum case will reliably protect your credit-card-sized single-board computer, while all ports remain easily accessible. The included AC adapter powers the board.

Thanks to the microSD card with pre-installed Noobs operating system, you can start immediately. You can even connect your board to a monitor or TV by using the included HDMI cable.

Scope of delivery:

- Raspberry Pi, model 3B+
- Official power supply, 5.1 V, 2.5 Ah, with 1.5 m cable and 4 different AC adapters
- Aluminum case in black
- Heatsink kit for single-board computer, 1x large, 2x small, self-adhesive
- 16 GB microSD card with pre-installed Noobs operating system
- HDMI connection cable, 1.8 m, double shielded
- Patch cable Cat. 5e, shielded, 2 m
- Small multipurpose plastic box, 225 x 210 x 70 mm
