from **13,36 EUR**

Item no.: 361235  
shipping weight: 0.10 kg  
Manufacturer: Delock

### Product Description

This 4-in-1 charging cable from Delock is used to charge various devices, such as tablets or smartphones with Lightning™, Micro USB-B or USB Type-C™ connection via a USB power source. The special feature here is the USB-A connection, which is combined with a USB-C™ plug. This means that a power source with USB-A or USB-C™ socket can be used. The cable is the ideal companion for on the go, e.g. on business trips or on holiday, as it combines the three most common connections for current mobile devices in a single cable. This avoids annoying cable tangles and the unnecessary carrying around of countless cables. The different cable colours make it easier to distinguish between the connections. The cable is very durable and long-lasting thanks to its robust textile sheathing, strong strain relief and metal housings at all cable ends. The high wire gauge of 24 AWG also supports a stable power supply of up to 3 A.

Combined USB Type-A and USB-C™ connector.

Specification:

- Connectors: 1x USB 2.0 Type-A connector + USB-C™ connector > 1x 8 pin Apple Lightning™ connector, 1x USB Type Micro-B connector, 2x USB Type-C™ connector
- Supports charging function only
