Product Description

This SATA cable from Delock is used for the internal connection of various SATA devices, such as hard drives, controller cards or flash memory. It complies with the latest standard and supports a data transfer rate of up to 6 Gb/s and is downward compatible with the previous SATA versions, whereby only the respective transfer rate can be achieved here. When connecting a hard disk, the SATA cable is led away downwards. Additional snap-in when connecting the cable is made possible by the metal clips on the connectors.
