📄 Product Description

IPFire Eco Appliance - 4 GB RAM and 64 GB SSDThe IPFire Eco Appliance is the right solution for small businesses and remote branch offices and comes with all the features that the IPFire Firewall distribution has to offer.We recommend our IPFire Eco Appliance for 1 to 25 users and our customers can utilize this appliance to create VPN connections which directly connect their branch offices to the main headquarters. With the application-level web filter, the anti-virus filter, the intrusion prevention system, and of course the robust firewall this appliance provides even the smallest of businesses the best security.Consuming only 15 Watts, this appliance is very environmentally-friendly. Its also fan-less and makes no noise at all, making it right at home in an office environment with no server rack.With the additional wireless interface, you can turn your IPFire Eco Appliance into a wireless access point and securely connect notebooks, mobile phones and more to your company network. The wireless module supports the 802.11a/b/g/n standards on the 2.4 GHz or 5 GHz frequency band with up to 450 MBit/s.

Specifications

- Intel(R) Atom(R) Dual-Core Processor
- 4 GB RAM and 64 GB SSD for persistant storage

Connectors

- 4x active Intel(R) Gigabit Ethernet controllers with up to 940 MBit/s effective data throughput
- 4x RJ-45
