EPMP1000-SA - ePMP1000 - 15.5 dBi / 90° - 5 GHz sector antenna

119,68 EUR

Item no.: EPMP1000-SA
shipping weight: 5.90 kg
Manufacturer: Cambium Networks

Product Description

Cambium Networks ePMP1000 - 15.5 dBi / 90° - 5 GHz Sector Antenna The new standard in wireless broadband Mobile service providers and enterprises need a reliable, high quality broadband connection that can be deployed and expanded quickly. The new ePMP platform delivers stable coverage over wide service areas and enhances your existing infrastructure. The radios deliver an impressive 200+ Mbps throughput to deliver bandwidth-intensive services such as VoIP (Voice over IP), video and to end customers across multiple vertical markets. The ePMP is optimised for outdoor applications and provides connectivity up to 21 km with an efficient PTP and PMP built-in radio. With 2.4 GHz and 5 GHz spectrum, the new ePMP design covers most unlicensed global bandwidths and is the most effective connectivity solution for the under- and unconnected in the world. - GPS synchronisation for seamless scalability and minimal interference. - QoS (Quality of Service) ensures superior consistency and integrity for VoIP (Voice over IP) video and data services. - Reliability is ensured by high quality components that have undergone rigorous testing to minimise service requirements and enhance performance.
