20675 - Universal mobile phone holder Mini 4 in 1 anthracite

3,70 EUR

Item no.: 372486
shipping weight: 0.10 kg
Manufacturer: Delock

Product Description

This 4 in 1 mobile phone holder from Delock serves as a small practical aid when using a mobile phone and is suitable for all smartphone models. The mobile phone holder can be easily attached to the back of the mobile phone using the adhesive pad. Car holder With the help of the rubberised slot, the mobile phone can be easily attached to the ventilation shaft of the car and easily removed with one hand. 360° flexible rotation Another function is the 360° rotation. This allows the mobile phone to be positioned vertically or horizontally in the car. Finger ring and stand function By opening up the holder, it can also be used as a finger ring or as a stand. This means that the mobile phone can either be held comfortably in the hand or can be positioned directly to watch videos, for example. The finger ring is ideal for improving the reach of the thumb and protecting the mobile phone from accidental drops.
