## 90418 - Slot bracket with 1 x SATA 22 pin connector external

from **6,68 EUR**

Item no.: 373049  
shipping weight: 0.10 kg  
Manufacturer: Delock

### Product Description

The slot bracket by Delock adds a SATA 22 pin connector to the PC and allows the internal SATA connection to be routed to the outside in order to connect external SATA devices with the help of a cable (e.g. article 84406). This allows, for example, card readers (items 91661 and 91673) or hard drives to be operated externally for servicing. The cables of the slot bracket are connected internally to the mainboard and the power supply unit. This means that the internal power connection and the SATA connection are routed to the outside so that devices with a SATA 22-pin connection can be connected to the computer. Note! It is not possible to connect SATA cables with a snap-in function.

Specification- Internal connections: 1 x SATA 6 Gb/s 7 pin female; 1 x Molex 4 pin male- External connections: 1 x SATA 6 Gb/s 22 pin male- Data transfer rate up to 6 Gb/s- Backward compatible to SATA 1.5 Gb/s and 3 Gb/s- Screw type: #4-40 UNC- Wire cross-section:- 26 AWG data cable- 18 AWG power cable- Slot bracket: Standard- Cable length without connections: approx. 25 cmSystem requirements- PC with one free slot- One free SATA 7-pin connector on the mainboard- One free Molex 4-pin socketPackage contents- Slot bracket
