Product Description

This stand by Delock not only impresses with its design, but also with its stability and function. Thanks to the adjustable angle, the tablet or notebook can be placed in any position and remains stable. The rubber pads attached to the underside and in the holder ensure that neither the device nor the holder slips. Also ideal for long video calls or series marathons. The recess in the holder means that the tablet can also be charged while it is standing upright. This makes the holder ideal for long Facetime or Skype video calls, as well as a series marathon.
