Product Description

These round rubber feet by Delock can be placed under technical devices or housings, for example, to protect them from scratches or knocks. They also dampen noise, prevent abrasion and minimise vibrations. Application The rubber feet have an adhesive pad on the underside and can be easily attached to any smooth and clean surface made of wood, glass or plastic. To attach, simply remove the protective film from the back of the rubber foot and stick the foot to the desired location. Versatile The rubber feet can be used for keyboards, tables, chairs, glasses, drawers, cupboards or doors, for example.
