

Item no.: 361977

Ergonomic USB mouse vertical - RGB lighting

from **19,33 EUR**

Item no.: 361977
shipping weight: 0.20 kg
Manufacturer: Delock

Product Description

This wired vertical USB mouse from Delock is suitable for right-handers and can be connected to a free USB port on the PC or notebook. Due to the ergonomic design, the hand remains in an upright position and does not have to be turned. Thus, the mouse can be used preventively or in case of incipient complaints, such as RSI (repetitive strain injury). To adjust the sensitivity of the mouse, there are four adjustable DPI levels.

RGB touch functionThe mouse is particularly distinguished by its RGB touch function. By touching the fingerprint symbol on the top of the mouse, you can choose between four different colour settings. The upper edge then lights up in the desired colour scheme.
