Item no.: 361257  
shipping weight: 1.10 kg  
Manufacturer: Delock

### Product Description

This docking station from Delock can be connected to a computer with USB-C™ or USB Type-A port and provides a variety of interfaces. Two monitors can be operated simultaneously on the DisplayPort outputs. Six integrated USB 3.2 Gen 1 ports enable the use of peripherals, and connections for a microphone and speakers and Gigabit networking complete the features.

Ultra-HD (4K) resolution is possible when using only one monitor and also when outputting to both DisplayPort outputs simultaneously. No DisplayPort Alternate Mode support is required.

Due to the Displaylink graphics chipset, it is possible to use mirrored and extended display functions under Windows and Mac OS operating systems.
