from **22,24 EUR**

Item no.: 373665
shipping weight: 0.40 kg
Manufacturer: Delock

Product Description

This gaming stereo headset by Delock has been developed for the playback and recording of audio signals, especially for gaming. It is also suitable for Skype, video conferences or online courses. Excellent sound experience The 40 mm headphone audio drivers are characterised by crystal-clear sound and deep bass, thus offering a first-class gaming experience. Multi-platform compatibility Thanks to the international standard (CTIA) 3.5 mm jack plug and the included Y-jack adapter, the headset can be connected to various gaming systems such as PC, notebook, Xbox One S or PS4. For example, PC, notebook, Xbox One S or PS4. Low-noise microphone The microphone picks up speech and vocal transmissions clearly and distinctly thanks to the flexible microphone boom and noise cancellation. Comfortable to wear The headset has a soft and padded headband. The durable and soft ear pads surround the ears perfectly. Due to its low weight of only approx. 230 grams, the headset is remarkably light and is therefore comfortable to wear even during prolonged use. The headband can be adjusted to the desired head size. Cable remote control & quick mute switch There is a cable remote control on the cable that can be used to adjust the volume on the headset as required, and the microphone can be muted immediately using the quick mute switch. Note The USB plug is only for powering the blue LEDs on the headset, not for the function of the headset.
