

Item no.: 372983

20850 - Solder wire connectors waterproof set of 50 pieces 26 - 10 AWG coloured

from **15,37 EUR**

Item no.: 372983
shipping weight: 0.10 kg
Manufacturer: Delock

Product Description

These waterproof solder wire connectors or heat shrink connectors by Delock are perfect for connecting, soldering, insulating and sealing wires in one step. Selection of different sizes and colours. This set includes wire connectors with 4 different diameters and 4 different colours for easy differentiation and identification. Application of solder wire connectors. The stripped wires are simply placed in the solder sleeve, fixed and heated with a hot air gun. After cooling, a waterproof insulation forms around the soldered joint and ensures that the wires are firmly connected. The wire connectors guarantee high tensile strength, tear resistance and protection against mechanical damage. Versatile. The solder wire connectors are ideal for electricians, tradesmen, for repairs to appliances in the home or in the workshop.
