## Delock USB Stereo Headset with Cable Remote and Quick-Mute Button for PC / Notebook

from **23,13 EUR**

Item no.: 362006  
shipping weight: 0.20 kg  
Manufacturer: Delock

### Product Description

This USB headset from Delock is suitable for playing back and recording audio signals in the home office or for the small business sector. It is ideal for skypeing, video conferencing or online courses.

**Optimal recording & good stereo sound**

The microphone picks up voice and vocal transmissions clearly thanks to the flexible microphone boom. The headset offers a sampling rate of up to 16 bit / 48 kHz, and can therefore record and play back audio signals in DVD quality.

**Comfortable to wear**The headset has soft earmuffs and is remarkably light at only approx. 126 grams. The headband can be adjusted to the desired head size. This means that the headset is comfortable to wear even during longer periods of use.

**Cable remote control & Quick-Mute button**

There is a cable remote control on the cable that can be used to adjust the volume on the headset as desired. The microphone can be instantly muted with the quick-mute switch. A red LED lights up on the remote control as soon as the microphone is muted.

**Plug & Play**

Thanks to USB Plug & Play, the headset is immediately ready for use and no driver installation is necessary. The headset works with all common operating systems such as Windows, Mac OS, Chrome OS and Linux.

**Specification**

- Connection: 1 x USB 2.0 type-A plug
- Polar pattern: omnidirectional
- Sensitivity: headphones: 103 dB +/- 3 dB, microphone: -19 dB +/- 3 dB, @ 1KHz
- Frequency range: headphones: 20 Hz - 20 kHz, microphone: 100 Hz - 10 kHz
- Impedance: 32 +/- 5 Ohm
