USB condenser microphone set - for podcasting, gaming and singing

from **32,58 EUR**

Item no.: 361868
shipping weight: 0.50 kg
Manufacturer: Delock

Product Description

This USB condenser microphone from Delock can be used for high-quality voice and vocal recordings.

The microphone has a cardioid directional characteristic (unidirectional) and thus captures the sound ideally. Thanks to high performance, low self-noise and precise reproduction, even the finest sounds are optimally recorded.

Thanks to the Dual Layer Pop Filter and windscreen included in the scope of delivery, the recording quality is optimised even further. Annoying wind noise is optimally filtered out.

Thanks to USB Plug & Play, the microphone is ready to use immediately and no driver installation is necessary. The microphone works with all common operating systems such as Windows, Mac OS, Chrome OS and Linux.

The metal stand with rubber feet ensures that the microphone is stable on the table. The microphone spider ensures vibration-free recording. The table stand can be easily folded up and transported if necessary.

- Connection: 1x USB 2.0 type-A plug
- Polar pattern: uni-directional
- Sensitivity: -47 dB +/- 3 dB
- Frequency range: 20 Hz - 20 kHz
- Sampling rate: 16 bit/44.1 kHz
- Signal-to-noise ratio (SNR): approx. 60 dB
- Impedance: 2.2 kOhm
- Cable length: approx. 1.5 m
- Colour: black
- Dimensions (LxWxH): approx. 150 x 45 x 35 mm
- USB bus power
- Plug & Play
