

Item no.: 361998

USB Condenser Microphone Omnidirectional for Conferences

from 38,64 EUR

shipping weight: 0.30 kg Manufacturer: Delock

Product Description

This table microphone from Delock is designed for use in conferences.

The microphone has a circular directional characteristic (omnidirectional) and thus captures the sound ideally. Thanks to high performance, low self-noise and precise reproduction, even the finest sounds are optimally recorded.

The microphone can be quickly muted with the touch mute button. The LED lights up red when muted and green during recording.

The microphone has a 3.5 mm jack output for connecting e.g. headphones or speakers.

Thanks to USB Plug & Play, the microphone is ready to use immediately and no driver installation is necessary. The microphone works with all common operating systems such as Windows, Mac OS, Chrome OS and Linux.

Specification

- Connectors:
 1 x USB 2.0 type-A plug
