from **11,81 EUR**

Item no.: 372952  
shipping weight: 0.10 kg  
Manufacturer: Delock

### Product Description

This sturdy USB hub by Delock in a metal housing is connected to a computer, notebook or mobile device via the USB Type-A or USB-C™ port. It expands the computer by 4 USB type A ports. Various USB devices, such as USB sticks, card readers, external housings, etc., can be connected. Extensive connection options Thanks to the specially designed adapter, the Delock hub can also be quickly and easily connected to the USB type A socket. This means it can be easily connected to new devices with a USB Type-C™ socket and older devices that only have a USB Type-A connection. The adapter is located directly on the cable and therefore cannot get lost. Small, sturdy helper Thanks to its small dimensions and sturdy housing, this Delock hub is particularly suitable for travelling. It can simply be packed in your bag together with your notebook or tablet and used when needed. Note The power supply of the connected devices depends on the input power and the number of connected devices.
