## 📄 Product Description

PCI Express x1 card to 4 x USB-A socket USB (USB 3.2 Gen 1)

The PCI Express card from Delock expands the PC by four external USB 3.2 Gen 1 ports. Various USB devices, such as docking stations, card readers, external enclosures, etc., can be connected.

10 watts output power per port

The card does not require any additional power supply and can still deliver 2 A to each port. This means that a total of 8 A can be achieved when all ports are used.

Package contents

- PCI Express card USB 3.2 Gen 1
