TS16GCF133 - memory card, 16GB, Compact Flash

from **31,04 EUR**

Item no.: 312474
shipping weight: 0.10 kg
Manufacturer: Transcend

Product Description

16 GB Transcend CF 133X Compact Flash Card TS16GCF133

Transcend's 133X CF cards target users who demand superior performance and reliability from their memory cards, including professional photographers, reporters and photography enthusiasts. To ensure ultimate compatibility and speed, these cards operate in both dual-channel and Ultra DMA mode 4 modes*, making consecutive shooting and non-stop video recording with today's high-performance digital single lens reflex cameras (DSLR) easier than ever.

Features

- Ultra-fast 133X performance with dual-channel support
- Conforms to CF Type I standards
- Data transfer rate: 15 ~ 40 MB / sec (max*)
- Supports Ultra DMA mode 0 - 4**
- CompactFlash 4.0 compliant
- Built-in hardware ECC technology for detecting and correcting errors
- ATA interface
- Low power consumption
- Multi-platform compatibility
- RoHS compliant

* Note: Based on internal Transcend testing with Testmetrix. Actual transfer speed may vary due to host hardware, software and usage.

** Note: Default setting: Ultra DMA 4

- Size: 42.8 x 36.4 x 3.3 mm
- Op. voltage: 3.3 V / 5 V
- Op. temperature: -25°C (-13°F) to 85°C (185°F)
- Weight: 11.4 g (max.)
- Durability: 10,000 insertion/removal cycles
