Update Service for MikroTik

9,89 EUR

Item no.: 322669
shipping weight: 0.00 kg
Manufacturer: VARIA Group

Product Description

Update Service for MikroTik The security of your network matters to us

MikroTik devices with RouterOS or SwOS are not always delivered with the latest version of the operating system. This can be a serious security threat for your network, if a malware exploits vulnerabilities in the software.

To avoid this, you can choose the VARIA Update Service from the available options when ordering a MikroTik device. Our technical support team will update the device's operating system to the latest version, so you receive a secure product.
