Product Description

RF Elements SH-CC-5-80 - Symmetrical Horn Antenna, Carrier Class

The SH-CC series offers unique RF performance in a very compact package. Scalar horn antennas have symmetrical beams with identical patterns in the vertical and horizontal plain. Extremely small side lobes secure greatly decreased interference.

SH-CC antennas are ideal for covering areas with close in clients where null zone issues occur. High density AP clusters and radio co-location is now practical due to very unique RF radiation patterns and compact size.

SH-CC 5-80 antenna is equipped with N-female connectors.
