Made for
iPod iPhone iPad

0,5 m

Product Description

This audio cable by Delock is used to connect an iPhone or iPad, which only has an 8-pin Lightning™ interface, to various audio devices with a jack socket. It is suitable, for example, for connecting the mobile device to external speakers, the car radio or the headset. Quality and performance The cable is very hard-wearing and durable due to its robust textile sheathing, strong strain relief and metal housing at all cable ends. MFi certified The MFi certification and the original Apple C101 connector guarantee full compatibility with all devices with Lightning™ connection.
