Product Description

This cable connector by Delock can be used to connect or extend two RJ45 network cables and is ideal for outdoor use, e.g. in the garden. Various components for perfect installation. The cable connector consists of a total of 5 plastic parts (1 x RJ45 coupling, 2 x housing and 2 x screw cap) and 4 rings. The sealing ring on the feed-through hole of the housing seals between the cable and the housing. It can be opened at the side so that the cable can be inserted. The two screw threads directly on the RJ45 coupling are each protected with a silicone sealing ring. IP68 dust and waterproof. The coupling offers increased protection against dirt and moisture for connecting network cables.
