66640 - Professional computer podcasting microphone with XLR connector and 3 pin

from **27,78 EUR**

Item no.: 373763
shipping weight: 0.70 kg
Manufacturer: Delock

Product Description

This professional condenser microphone by Delock can be used for high-quality voice and vocal recordings. The microphone has a high-quality 16 mm condenser chip and a cardioid polar pattern (unidirectional) and thus captures the sound perfectly. Thanks to its high performance, low inherent noise and precise reproduction, even the finest sounds are recorded crystal clear. The recording quality is optimised even further thanks to the windscreen included in the scope of delivery. Disturbing wind noise is optimally filtered out. It can be connected to any PC or notebook via the detachable XLR to 3-pin jack cable. It can also be connected to a tablet or smartphone using the 4-pin Y adapter cable included in the scope of delivery. The metal stand with rubber feet ensures that the microphone is stable on the table. The microphone holder can be adjusted to a 180° angle as required. The table stand can be easily folded up and transported if required.
