from **208,71 EUR**

Item no.: 373636
shipping weight: 0.30 kg
Manufacturer: Delock

📄 Product Description

This Thunderbolt™ 3 mini docking station by Delock can be connected to a computer with a Thunderbolt™ 3 port and provides a variety of interfaces. The DisplayPort output enables the connection of an 8K display, the HDMI output enables the connection of a 4K display, two monitors with 4K resolution can be operated simultaneously. Two integrated USB ports enable the use of peripheral devices, connections for a headset and Gigabit network complete the equipment.The product is an MST hub and supports the extended desktop configuration of DisplayPort. This allows several monitors to be combined into one large display. The docking station supports a maximum resolution per monitor of up to 4K 60 Hz.The docking station has a USB Type-C™ Power Delivery Port, to which the power supply unit of the notebook or tablet can be connected to charge it.The device can simply be plugged in and is immediately ready for use. No extra power supply is required when using the docking station.Due to its small dimensions and sturdy housing, this Delock docking station is particularly suitable for travelling. It can simply be packed in your bag together with your notebook or tablet and used when needed.
