## 84179 - Active Optical USB-C Video + Data + PD Cable 15 m

## from 255,97 EUR

Item no.: 372199 shipping weight: 1.10 kg Manufacturer: Delock

## Product Description

This USB cable by Delock enables the connection between devices with a USB Type-C<sup>™</sup> port and a PC or notebook with a free USB Type-C<sup>™</sup> port. This active optical cable uses fibre optics to transmit high-speed signals. Compared to the traditional copper cable, it is softer, thinner, lighter and can transmit signals loss-free over longer distances. The cable is suitable for connecting a USB-C<sup>™</sup> monitor with a resolution of up to 4K Ultra HD (3840 x 2160 @ 144 Hz) to a computer with USB-C<sup>™</sup> interface and DisplayPort Alternate Mode support. The active optical cable enables data transfer rates of up to 10 Gbps when connecting USB 10 Gbps compatible devices. Of course, USB 2.0 devices can also be connected. Support for the USB Power Delivery standard means that connected devices can be supplied with power, up to 60 W (20 V / 3 A) is possible. Note: This cable is only compatible with DisplayPort (DP Alt-Mode) devices and not with Thunderbolt<sup>™</sup> devices.

support.The active optical cable enables data transfer rates of up to 10 Gbps when connecting USB 10 Gbps compatible devices. Of course, USB 2.0 devices can also be connected. Support for the USB Power Delivery standard means that connected devices can be supplied with power, up to 60 W (20 V / 3 A) is possible.
