

Item no.: 373099

87739 - Mini docking station for Macbook with 5K

from **23,74 EUR**

Item no.: 373099
shipping weight: 0.10 kg
Manufacturer: Delock

Product Description

This docking station by Delock can be connected to a Macbook with two adjacent Thunderbolt™ 3 ports, e.g. a Macbook Pro. A monitor can be operated at the HDMI output or Thunderbolt™ 3™ port. An integrated USB Type-A port enables the use of peripheral devices. The Macbook can be charged during operation using a USB-C™ power supply unit. The Thunderbolt™ 3 port can be used to connect a Thunderbolt™ monitor or other Thunderbolt™ 3 peripheral devices that have their own power supply, for example. The docking station has a USB Type-C™ Power Delivery port, to which the power supply unit of the notebook or tablet can be connected to charge it. The docking station can also be used without a power supply unit. Thanks to its small dimensions and sturdy housing, this Delock docking station is particularly suitable for travelling. It can simply be packed in your bag together with your notebook and used when needed. Note: Only an additional external monitor can be connected to MacBook devices with the M1 chipset.

Specification- Connectors: 2 x Thunderbolt™ 3 USB Type-C™ plug, 1 x HDMI-A socket, 1 x SuperSpeed USB 10 Gbps (USB 3.1 Gen 2) Type-A socket, 1 x Thunderbolt™ 3 socket (no power supply for connected Thunderbolt devices)- Resolution: Thunderbolt™ 3 up to 5120 x 2880 @ 30 Hz, HDMI up to 3840 x 2160 @ 30 Hz, (depending on the system and connected hardware)- Transmission of audio and video signals- Only 1 monitor can be used on the adapter- Input power: 1 x USB Type-C™ socket max. 100 W- USB Power Delivery (PD) 2.0- Metal housing- Colour: grey- Dimensions (LxWxH): approx. 65 x 28 x 9 mm System requirements- Macbook Pro with two adjacent Thunderbolt™ 3 ports Package contents- Docking station- Operating instructions
