Product Description

TP-Link Desktop Switch TL-SL1311MP is an unmanaged PoE switch with 8x 10/100 Mbps LAN, 2x Gigabit LAN uplink ports and one SFP port. The switch supports the power supply of PoE 802.3af/at devices such as cameras, VoIP, AP on the first 8 ports with a maximum device consumption of 30 W/port, maximum 124 W on all eight ports simultaneously. Thanks to the switch, the first 4 ports also enable long-range PoE, up to a distance of 250 m, which is achieved by reducing the line speed to 10 Mbps.
