Product Description

Breathe new life into your PC so that you can work even more productively and increase your creative potential. The WD Blue SA510 SATA SSD is designed for professionals and media content creators and editors. It comes with Acronis® True Image™ for Western Digital backup and cybersecurity software and a three-month trial of Dropbox® Professional⁴. Upgrade your creativity With read speeds of up to 560MB/s¹ (500GB and 1TB and 2TB models), this fast SATA SSD delivers a performance boost to your workloads, so your creativity and productivity are limitless. Start your PC afresh Why buy an expensive new computer? With capacities of up to 2TB², long endurance, low power consumption that saves your laptop's battery and less vibration than HDDs, the WD Blue SA510 SATA SSD is the perfect drive for a powerful PC upgrade. Protect your content The included Acronis True Image™ for Western Digital³ software allows you to clone the entire contents of your internal hard drive to the WD Blue SA510. In addition, the user-friendly and efficient software offers AI-based protection against ransomware and many other threats. Easy file sharing with Dropbox Dropbox makes it easy to store and share files. Share content such as photos, videos, documents, presentations via a centralised, easy-to-access platform with the three-month trial of Dropbox Professional⁴ included with the purchase of a WD Blue SA510. More control For more relaxed working and additional security, the Western Digital SSD Dashboard available for download allows you to monitor the status, available memory, temperature, firmware version and other drive data. Installation in your PC For increased compatibility, the WD Blue SA510 SATA SSD is available in 2.5-inch and M.2 form factors. This means it fits into current PC slots as well as older models.
