MCOEMH10-PM - PM2.5 Sensor Air Quality Monitors - 12V

from **160,13 EUR**

Item no.: 327221
shipping weight: 0.40 kg
Manufacturer: MCO Home

Product Description

PM2.5 Sensor Air Quality Monitors - 12V

The air quality monitor MCOEMH10-PM by MCO Home detects PM2.5 (fine dust) in the air in real-time and alarms if it reaches defined limit values. In addition, it has integrated sensors for VOC, temperature and humidity. The air quality monitor can control air ventilation systems directly via integrated outputs. The MCOEMH10-PM convinces with high reliability and practicability and is able to work in any Z-Wave network with other Z-Wave certified devices.

Features:

- Monitors PM2.5 concentration in air
- High accuracy and reliability
- Modern glass touch surface
- Power supply: 12VDC (Power supply is not included in scope of delivery)
- PM2.5 detection range: 0-999.9 µg/m
- Installation: Wall-mounted (Vertical), Hole Pitch: 60 mm or 82 mm
- Wireless Technology: Z-Wave Plus
