Product Description

The Remotec ZXT600 is a 100% interoperable Z-Wave to IR extender that can be used to integrate conventional air conditioners into the Z-Wave network. The extender transmits IR control code with a wide frequency range as well as the room temperature and supports all standardised gateways and portable controllers. In addition, the ZXT600 has an integrated 5-way IR emitter (hemispherical coverage) and allows programmable power output (high or low) for external IR transmitters.
