Luxy Smart Switch

from **140,23 EUR**

Item no.: 358017
shipping weight: 0.50 kg
Manufacturer: Qubino

Product Description

Qubino Luxy Smart Switch is the world's first switch that can glow in over 16 million colours. It can be used individually as a switch to switch connected lamps and as a modern ambient light. Thanks to Z-Wave, you can also use Luxy as a Smart Home device with your Z-Wave central unit and for many other functionalities. This way you can create different scenes and timers to switch Luxy on and off in different situations and make your home individually smart.

What can Luxy do?

- Manual control via 5 touch-sensitive points on the Luxy surface
- Control via smartphone*
- On/off control of connected lights or other electrical devices
- Control of the Luxy ambient light (16 million colours)
- Setting of 4 different light effects
- Measuring the power consumption of a connected device*
- Timed automated on/off and colour control*
- Visual LED notification of various events from other Smart Home devices, such as motion, doorbell or flood alarm*

*Only in combination with a Z-Wave Smart Home Gateway.

- 16 million colour LED
- Fits in regular flush-mounted boxes
- Can be connected directly to a lamp and functions as a wall switch
- Switching via integrated control panels
- Manual or wireless control via Z-Wave Plus
- Z-Wave S2 and SmartStart
- Electr. input: 110-240 V
- Max. Output power: 10 A
- Standby power consumption: 0.5 W; max. power consumption: 1.5 W
