from **121,32 EUR**

Item no.: 358022
shipping weight: 0.50 kg
Manufacturer: Aeotec

Product Description

The Aeotec Smart Home Hub is the central connection and is the intelligent brain of your Smart Home. It allows you to connect wirelessly to a wide range of compatible smart devices, like lights and sensors.

It is all dedicated to your routines: Automate your personal routines with the SmartThings App for more comfort. So you can create your own scenarios and own evening routines: just relax on the couch, while all your thermostat switch to a convenient temperature, the smart lights dim to a cozy ambience and a complete feelgood atmosphere is created. The Hub fits perfectly in your home: The small and slim Aeotec Smart Home Hub with its simple design blends perfectly into your home. So you can place the Hub anywhere and add a stylish component to your home.

Note: This Hub includes a Type G power adapter. If you are not from UK, please use the Aeotec Smart Home Hub for EU.
