Product Description

Pigtail FME Male to CRC9 Male Connector, 20 cm, for many 3G modules. The HDF/LLC100 Cable: With an outer diameter of 5.4 mm, the low loss LLC100 is in thickness comparable to the RG58 cable. However, this high-frequency cable is characterized by an extremely low attenuation of 50 dB/100 m at 2.4 GHz. Like most coaxial cables for high-frequency technology, the LLC100 also has an impedance of 50 ohms and an inner conductor in the form of a stranded wire. The dielectric of this high-quality RF cable is made of PE. As a RF connector you can use type N connectors, SMA connectors and TNC connectors.
