

Item no.: 376725

MCE338 - Power socket distributor with 2 sockets and circuit breaker, type F, 2x16A

from **3,44 EUR**

Item no.: 376725
shipping weight: 0.30 kg
Manufacturer: Maclean Brackets

Product Description

The socket splitter is a simple but very useful device that allows you to control the switching on and off of all electrically powered devices that you connect to it. Plug the splitter into a socket and then connect the devices that you want to control to switch on and off. The splitter is activated by pressing the ON/OFF button. When you switch the switch on (or off), you switch on (or off) every electrical device that is connected to it.
