Item no.: 376804  
shipping weight: 0.10 kg  
Manufacturer: Maclean Brackets

## Product Description

A socket switch is a simple but very useful device that allows you to control the switching on and off of all electrically operated devices connected to it. Plug the switch into a socket and then connect the devices you want to switch on and off. You can activate the switch by pressing the ON/OFF button directly. When you switch a switch on (or off), you switch on (or off) every electrical device connected to it. ATTENTION: No Schuko!!! Type E socket outlet

Technical specifications- Number of sockets: 2 (child protection)- Socket: Type E (Polish)- Earthing ("pin")- On/off switch: yes (illuminated)- Maximum voltage: 250 V / 16 A / 3500 W

Distribution socket type E:- Belgium- France- Morocco- Monaco- Poland- Slovakia- Czech Republic- Tunisia- many former French colonies
