Item no.: 376824

MCE19 - PIR motion detector, ceiling, 1200W, range 6m

from **4,38 EUR**

Item no.: 376824
shipping weight: 0.20 kg
Manufacturer: Maclean Brackets

📄 Product Description

High-quality motion detector for ceiling mountingWith our sensor, you save electricity because the lighting only switches on when you need it!Detection angle: 360° !!!New generation - the infrared sensor has high stability, a beautiful and practical design, a large operating voltage range, simple installation and a large detection area. Automatic detection of day and night light. SMT technology used, compatible with European standards. It is designed for automatic lighting control in homes, hotels, offices, stairwells, corridors, basements, toilets, etc.Ceiling-mounted motion detector 360° - a device for automating electrical processes while saving electricity. Brand new, high quality product. Designed for indoor use. Packaging: colourful, aesthetic box.

Technical data- Operating voltage: 220-240V AC / 50 Hz- Detection angle: 360°- Light sensitivity setting: 3-2000 LUX- Detection range: 6 m (<24 °C)- Motion detection speed: 0.6 - 1.5 m/s- Material: white plastic- Operating temperature: -20 - +40 °C- Operating humidity: <93 ? RH- Installation height: 2.2m - 4.0m- Protection rating: IP20- Lighting time setting: 10sec +/- 3sec (min.), 7min +/- 2min (max)- Power consumption: 0.45W (operating mode), 0.1W (sleep mode)- Maximum load: 1200W (normal bulb), 300W (energy-saving bulb)Scope of delivery- MCE19 PIR ceiling sensor- Manufacturer's packaging- User manualFeatures- Operating voltage 220-240V AC / 50 Hz- Detection angle: 360°- Light sensitivity setting: 3-2000 LUX- Detection range: 6 m (<24 °C)- Motion detection speed: 0.6 - 1.5 m/s- Protection class: IP20Product features- Motion sensor whose function is to switch on the circuit and switch it off again after a certain time when an object emitting infrared radiation is detected.- The sensor has 2 rotary knobs: the LUX knob allows the light intensity threshold to be set (thanks to this function, it can be set to work only from dusk to dawn) and the TIME knob, which allows the switch-on hold time to be set- Easy to fix to the ceiling using 2 wall plugs (included)- Application: Automation of switching on and off, e.g. switching lamps, activating alarm systems- Also suitable for light bulbs and LED lighting
