## MCE24 - PIR infrared motion sensor detector lamp holder

**4,64 EUR**

Item no.: 382064  
shipping weight: 0.10 kg  
Manufacturer: Maclean Brackets

### Product Description

Light bulb holder for automatic switching of lighting, e.g. in stairwells, basements, corridors or other rooms. Adjustable bulb light duration. The bulb holder is ideal for use in: Passages, corridors, basements, warehouses, garages and other areas where lighting should be switched on when movement is detected. Specification- Operating voltage: ~110-240V/50-60Hz- Detection angle: 360°- Light sensitivity setting: 3-2000LUX- Detection range: max. 6m (<24 °C)- Thread type: E27- Sensor: PIR detector (infrared)- Protection rating: IP20- Mounting height: 2m-3.5m- Adjustable lighting duration: from 10sec to 5min- Maximum power: for incandescent bulbs: 60W, for energy-saving bulbs: 20W, for LED bulbs: 10W- 360° motion detection angle- PIR infrared sensor- E27 socket thread (large thread)- Built-in light intensity sensor- Adjustable lighting time and light intensity level at which the device starts to work (twilight sensor)- Sensor range: max. 6m
