

Item no.: 376678

MCE231 - PIR motion detector, ceiling, range 6m, max. 100W (LED)

from **3,37 EUR**

Item no.: 376678
shipping weight: 0.10 kg
Manufacturer: Maclean Brackets

Product Description

High-quality motion detector for ceiling mounting With our sensor, you save electricity because the lighting only switches on when you need it! Detection angle: 360° !!! New generation - the infrared sensor has high stability, a beautiful and practical design, a large operating voltage range, simple installation and a large detection area. Automatic detection of day and night light. SMT technology used, compatible with European standards. It is designed for automatic lighting control in homes, hotels, offices, stairwells, corridors, basements, toilets, etc. Ceiling-mounted motion detector 360° - a device for automating electrical processes while saving electricity. Brand new, high quality product. Designed for indoor use. Packaging: colourful, aesthetic box.

Technical data- Power supply: 220-240V AC- Detection range: 360°- Frequency: 50-60Hz- Light sensitivity setting: <10-2000 LUX- Detection distance: max. 6 m (<24 °C)- Motion detection speed: 0.6 - 1.5 m/s- Material: white plastic- Operating temperature: -20 - +40 °C- Operating humidity: <93 % RH- Installation height: 2.2m - 4.0m- Protection class: IP20- Lighting time setting: 10sec +/- 3sec (min.), 7min +/- 2min (max)- Rated load: 100W (LED lamp) Kit contains- Ceiling-mounted PIR motion detector Maclean Energy MCE231- Mounting pins- Manufacturer's packaging- User manual Features- Power supply: 220-240V AC- Detection range: 360°- Light sensitivity setting: <10-2000 LUX- Detection range: max. 6 m (<24 °C)- Motion detection speed: 0.6 - 1.5 m/s- Protection class: IP20- Compatible with LED lighting Product features:- Motion detector whose function is to switch on the circuit and switch it off again after a certain time when an object that emits infrared radiation is detected.- The detector has 2 rotary knobs and 2 rotary buttons. The detector has 2 rotary knobs: the LUX knob allows you to set the lighting intensity threshold (thanks to this function, it can be set to work only between dusk and dawn) and the TIME knob, which allows you to set the switch-on time- Easy to fix to the ceiling using 2 wall plugs (included)- Application: Automation of switching on and off, e.g. switching lamps, activating alarm systems- Also suitable for light bulbs and LED lighting
