Product Description

Raspberry Pi Camera Module 3 WideThe new camera module from Raspberry Pi gives you an even better view of things. We are talking about the Raspberry Pi Camera 3 Wide. With the 12MP camera you get even better pictures than with its predecessor- improved low-light sensitivity- supports HDR (High dynamic range)- has an autofocus- the Sony IMX708 image sensor is installed- equipped with a 120° lens (wide angle)How to use your cameraThe Raspberry Pi Camera 3 Wide is compatible with all CSI-capable boards. Using various libraries, the module can be used to monitor plants or animals, for example. It can also be used for security purposes, coupled with an alarm mechanism for your home. With the wide-angle lens, you have an even wider area that you can view.Article contains:- 1 x Raspberry Pi camera module 3 Wide
