from **2,08 EUR**

Item no.: 382322  
shipping weight: 0.30 kg  
Manufacturer: Maclean Brackets

### Product Description

Solar LED lights are solar-powered devices that provide cost-effective, reliable, efficient and environmentally friendly outdoor lighting. They are ready for use immediately after installation and are practically maintenance-free in operation. The lamps are equipped with an automatic system that switches the lighting on at nightfall. The MCE319 lamp is ideal as a stair light, but can also be used to illuminate a path, garden, avenue, patio, courtyard, etc. The lamp is easy to install - you do not need to lay any cables and can enjoy an elegant and modern light source. The lamp's light source is powered by a rechargeable battery that draws power from an inbuilt solar cell (panel) during the day. It converts sunlight into electrical energy, which is stored in the built-in battery. After dark, the stored electricity is used to power the lighting element, the LED.

Specification- Manufacturer: Maclean- Model: MCE319- Rated voltage: 2 V DC- Protection class: IP44- Rated power: 0.6 W- Luminous flux: 40 lm- Maximum service life: 20000 hours- Rechargeable battery: NiMH 1.2V 100 mAh- Charging time: 8 hours- Lighting duration: 8 hours (after full charge)- Temperature range: -20°C to +35°C- Colour temperature: 4000K (neutral white)- Light source: LED SMD 2835 Set includes- Maclean MCE319 Solar patio light LED- Mounting accessories- Instruction manual- Manufacturer's packaging Features- Integrated rechargeable battery and solar panel- Light colour: Natural white (4000K)- Ideal as stair lighting- Built-in twilight sensor- Protection class: IP44- Weatherproof- Light duration on full charge: 8 hours
