📄 Product Description

INS-8023AF-I - Instant Indoor 802.3af Adapter

- Instantly transform any PoE device into a fully 48 V 802.3af compliant product
- Allows for longer cable run lengths
- Provides an additional +/-15 kV of Ethernet isolation for ESD/surge protection
- Works seamlessly with Cisco Catalyst and other 802.3af switches for remote power control applications

- Input: 48 V, 802.3af (with sensing capability)
- Output: 18 V, 0.8 A
- Output PoE method: Positive 4,5; return 7,8
- Ethernet ESD/surge protection: +/-15 kV
- Dimensions: 27x21.5x93.5 mm
- Weight: 0.2 kg
- Temperature operation: 0°C to 70°C
