### Product Description

ACB-ISP - AirCube ISP Home Wi-Fi Access Point introduces the airCube(TM), a cost-effective wireless access point for use in your customer deployments. Two models are available:

airCube AC: Dual-band, 802.11ac, 2x2 MIMO technology for maximum wireless performance airCube ISP: 802.11n, 2x2 MIMO Wi-Fi for speeds of up to 300 Mbps in the 2.4 GHz radio band. Versatile Power Options

Both models offer convenient PoE passthrough to power a 24 V airMAX CPE device, so you can use a single PoE adapter to power both devices. To provide sufficient power for PoE passthrough, the airCube ISP requires 24 V, 1 A PoE input or a 2 A Micro USB adapter (not included). Intuitive Software

Management options feature a graphical user interface designed for streamlined setup and control.

Available options include:

- U Mobile App: Supports quick setup and status information.
- Web UI: Enables a standalone utility for basic configuration.
- UNMS: Provides advanced remote control of devices.
