Manufacturer: Ubiquiti

### Product Description

#### ES-16XP - EdgeSwitch 16XP, 16-port PoE PRO, rack-mount Advanced Gigabit PoE Managed Switch

Introducing the Advanced Power over Ethernet Switches, EdgeSwitch(TM) XP from . EdgeSwitch XP delivers reliable passive PoE and fast 10/100/1000 Mbps connectivity to attached devices and other devices that support passive PoE.

To connect your PoE devices, simply enable PoE in the easy-to-use EdgeSwitch XP Configuration Interface. Each port can be individually configured to provide PoE, so both PoE and nonPoE devices can be connected.

EdgeSwitch XP is available in multiple versions to meet your deployment needs.

- EdgeSwitch 5XP is a costeffective, 5-port Gigabit switch with 24 V PoE support.
- EdgeSwitch 8XP is an industrial-strength, 8-port Gigabit switch with 150 watts of power, capable of powering 24 V or 48 V devices. The utput voltage is controlled by the software.
- EdgeSwitch 16XP features dual EdgeSwitch 8XP systems in a rackmountable, 1U form factor with 300 watts of power supporting up to 16 devices.

#### EdgeSwitch 16XP Features:

- 16 Gigabit PoE ports
- 24 V/48 V configurable passive PoE
- 300 W power
- EdgeSwitch XP Configuration Interface
- 1U rack-mount form factor
  
- Dimensions: 480 x 44.5 x 186 mm
- Weight 3.95 kg
- Hardware configuration: (2) EdgeSwitch 8XPs
- Mounting: Integrated 1U rack-mount
