Product Description

UA-Hub - UniFi Access Hub

UniFi(R) Access Hub is an intelligent IP networked single door controller, a part of UniFi Access solution.

The UniFi Access Hub comes with versatile interfaces, including support for most electric bolts/strikes, magnetic locks, and 12 V access accessories such as motion sensors, push buttons, and alarms. The three Ethernet PoE powered reader interfaces minimize need for wiring work and offer a convenient way to add a UniFi G3-Flex surveillance camera for additional security. The seamlessly integrated UniFi Access solution is managed with UniFi Access application. Easily manage users, visitors, schedules, and access policies with the intuitive browser-based interface. Features:
