Product Description

Ubiquiti CKG2-RM - G2 Cloud Key Rack Mount Accessory

Now you can mount the Cloud Key Gen2 in a standard 19" rack, along with other UniFi switches and network devices. Sold separately, the optional Rackmount Accessory, model CKG2-RM, features a docking bay for the Cloud Key Gen2 and an alternate Ethernet port* for power and network connectivity.

The Docking Bay is also designed to house the Cloud Key Gen2 Plus model, UCK-G2-PLUS. Simply press the Locking Tab on the back of the Rackmount Accessory and adjust the size of the Docking Bay.

* To prevent creating a loop or other unfavorable behavior on the network, only one Ethernet connection should be used. Do not use the Ethernet port on the Cloud Key Gen2 and the Rackmount Accessory simultaneously.
