TAPO T300 -

from **15,05 EUR**

Item no.: 374953
shipping weight: 0.10 kg
Manufacturer: TP-LINK

Product Description

The Tapo T300 smart sensor is used for detection of water leaks and at the same time for notification thanks to the 90 dB built-in alarm. The sensor is waterproof thanks to IP67 protection, has 6 detection probes on the top and bottom and is part of the smart Tapo smart home family, and thanks to this it is possible to program various automated events - for example triggering an alarm on the Hub, turning on a socket with a pump, etc. This sensor is powered by 2x AAA batteries with a lifespan of over 1 year, it communicates wireless frequency 868/922 MHz with the Tapo Smart Hub H100, which is necessary for the functioning of the sensor.

Wireless features- Wireless frequency: 868 MHz, 922 MHz Power- Power type: Battery Physical characteristics- Protection class: IP67- Operating temperature (°C): 0 up to 40- Width (mm): 47- Height (mm): 30- Depth (mm): 85
